### Personal Health and Swimming Proficiency

- Rowing and its associated training can be a strenuous activity. You should therefore be in good health and have no medical or physical condition precluding heavy exercise. **If there is any doubt you should first consult your doctor.**
- Some conditions such as asthma and diabetes, for example, do not prevent individuals participating in the sport, but you do have a **duty to declare any condition that might put yourself or others at risk.**
- Likewise, you have a **duty to declare any change** in personal health whilst a member of the Club that may put yourself or others at risk.
- It is important therefore that you inform those around you e.g. coaches and crew members, of any condition they may have to deal with in the event of an emergency.
- For your own safety it is important that you are a competent swimmer. At a minimum you must be able to swim 50 metres in light clothing. **If you cannot meet this requirement you must wear a lifejacket or buoyancy aid at all times when in a boat.**

### **STAGE 1 INDUCTION:**

All temporary members should go through a basic Stage 1 Induction before they go out on the water. The Session Manager or other authorised committee member <sup>1</sup> can do this so let them know if this has not yet been completed. It covers:

1. Everyone is responsible for safety – if it's unsafe, do something about it!
2. You **MUST** be able to swim at least 50m in light clothing i.e. your rowing kit or you must wear a lifejacket.

<sup>1</sup> Authorised committee member is: Chairman, Secretary, and Captains of Rowing & Boats.

3. You must dress appropriately e.g. No jeans.
4. Do you have any medical conditions that we need to be aware of?
5. Remember to row within your ability i.e. level of skills, fitness and competence.
6. Take care on the pontoon, it can be slippery when wet.
7. If the boat capsizes – STAY WITH THE BOAT! Ensure everyone is there and wait for instructions from the cox.
8. Never start or stop rowing unless the cox has given their authority to do so. If you need a break, then tell the cox and they will stop rowing.
9. Basic safety commands:
  - To stop the boat quickly – “Hold it up!”
  - The safety-position or “easy” position – legs flat, arms out and blade flat on the water
  - The blades stabilize the boat, so don’t pull them inboard unless the cox tell you to, even if the blades get tangled in the trees.
  - Listen to the cox at all times.
10. There is a lot of terminology in rowing so if you have any questions then please ask the cox or a club member.
11. More safety information is available on the safety notice board in the shed and the club website.
12. If you notice any breakages, then let the cox know so they can report it.
